

Indicative primary wholesale charges for 2018/19

Northumbrian Water Limited (NWL)

Indicative primary wholesale charges for 2018/19

In November 2016 Ofwat published its Wholesale Charging rules under section 66E and 117I of the Water Industry Act 1991, which sets out requirements to publish indicative primary wholesale charges for 2018/19. The charges contained in this document therefore represent the charges we expect to set for 2018/19 subject to any unforeseen significant changes in assumptions.

NWL supplies water in the Northumbrian Water (NW) region and in parts of Essex and Suffolk, which are known as Essex & Suffolk Water (ESW).

Prices in the NW and ESW regions are different and are shown on separate tabs. The structure of water tariffs in the two regions are the same.

NWL also supplies sewerage in the NW region only.

Information shown in this document is published on an indicative basis for information only, and the final publication of charges in January 2018 may be different.

Schedule for measured wholesale water supply 2018/19

Non-potable charges company comments

Note 2: Non-potable charges are only available for supplies from the Teesside Industrial Raw Water System.

Note 3: Non-potable charges are in addition to potable charges where a site is supplied both potable and non-potable water

Note 4: Our meter charges are determined in the following ranges:

0-24 mm
25-34 mm
35-39 mm
40-49 mm
50-64 mm
65+ mm

Company comments

Note 1 : Properties charged on the Assessed Tariff are charged an assessed band for their foul charges, as shown in the foul only column. Surface water and highway drainage are charged on the same basis as the measured tariffs (see the measured sheet).
