

### MAKING YOUR WATER CHARGES AS CLEAR AS OUR TAP WATER

Our charges change on 1 April each year. This guide explains how we charge you. For a personalised breakdown of how your own bill is made up, create an online account at [eswater.co.uk](https://eswater.co.uk) or download our easy to use on-the-go app. Go to the app store and search Essex & Suffolk Water.

## WHY YOUR WATER BILL HAS CHANGED

To keep delivering clean, fresh tap water and to improve our environmental performance, we need to continue improving our water networks. This means that our prices have increased this year by more than the rate of inflation.

We are investing £150 million by the end of 2025 to improve our pipelines, treatment works and pumping stations across Essex and Suffolk regions. These improvements are important to make sure our customers receive a reliable and high-quality water supply for the future. To learn more about what's happening in your area, scan the QR code or visit [eswater.co.uk/myarea](https://eswater.co.uk/myarea).

We do understand that an increase in water bill prices can be a concern for some of our customers. That's why we have lots of support available for anyone who might need it. If you're having trouble paying, please talk to us - we're here to help. Find more information at [eswater.co.uk/bill-help](https://eswater.co.uk/bill-help).

To find out more about your sewerage charges, visit Anglian Water's website at [anglianwater.co.uk/wastewater-only](https://anglianwater.co.uk/wastewater-only).
